SkyLight

SMART SYSTEM

# ALUMINUM

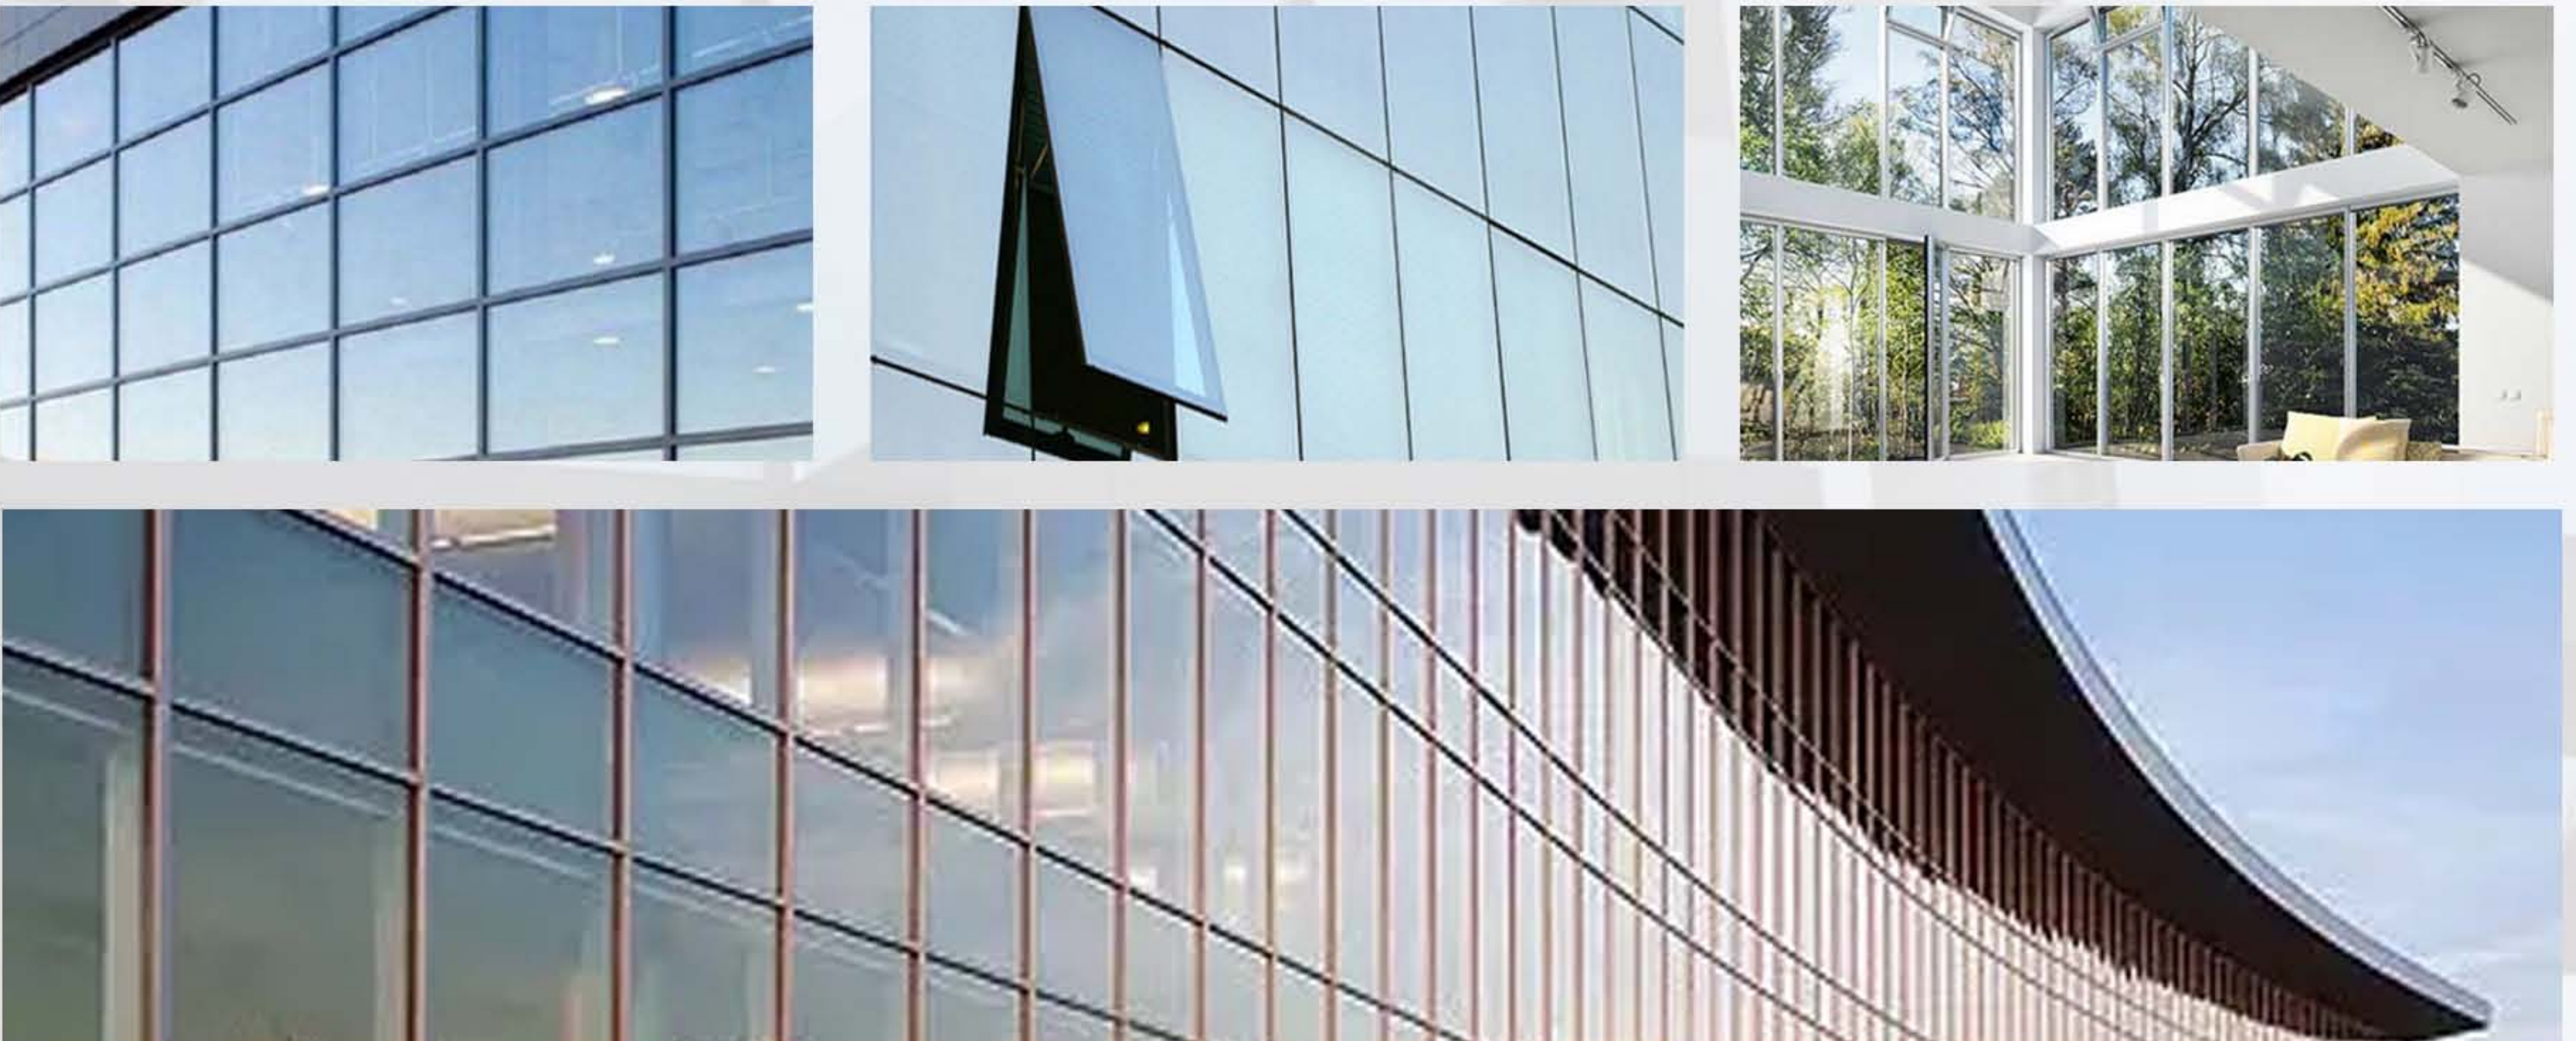

## Aluminum is your best choice.

Aluminum is a silvery, lightweight, heavy duty and corrosion-resistant material. Aluminum is used in the manufacture of doors, windows, partitions, curtain walls, skylights, and other construction works, it is the best seller in this field. The features of the aluminum frame are the possibility of placing double glazing (DGU) that will isolate sound and provide greater protection and energy savings through the glass that reflects light and heat. Aluminum can be coated with special colors material to prevent scratches and fading.

### ALUMINUM DOORS & WINDOWS

### CURTAIN WALL

# DOORS

## Which door is better?

When it comes to choosing between two things, it's really hard to make a decision. Before we start the comparison here are many factors, including the design, the need, the desired appearance, safety, security, & most importantly your privacy. In Glass Solutions we do several options according to your requirements.

### FOLDING DOOR

### AUTOMATIC DOORS

### SLIDING DOORS

# STAIRCASE

## A Beauty Of Staircase

Stairs design is a very creative system as it takes into consideration the structure of the building, the comfort, the overall design and most importantly, structural safety specifications. At Glass Solution, learn more about the types and shapes of stairs, so you can choose the one that best suits the space and aesthetic function of your project.

### HELICAL STAIRCASE

### MODERN FLOATING

### WALL SIDE STAIRCASE

# HANDRAILS

## What are the best types of handrails & railing for stairs?

The best stair railing material depends on the stair environment, space and desired appearance and most importantly it is a key safety feature which helps prevent falls and injuries. These parts can be made of different materials, such as stainless steel, Glass or wood, to achieve different visual effects. Get to know us on the best solution through our experts.

### GLASS HANDRAIL

### MODERN CURVED GLASS (BEND)

### STAINLESS STEEL HANDRAIL

# PERGOLA & ACP CLADDING

## We innovate & inspire our customers

Create an outdoor space that's as inviting and beautiful as the rest of your Home. custom designs are an excellent choice for pergola roofing to their affordability and high light transmission. The quality of implementation and prices in the decoration work depend on the shaped and material.

### PERGOLA

### ACP CLADDING

# SKYLIGHT

## Roof window unit

For product quality, we use the best materials, we at Glass Solutions have a professional engineer team that can provide you with the appropriate specifications for your project to feel secure in the installation details.

## SLIDING SHOWER DOOR

# MIRRORS & BACKSPLASH

## Mirror is a great wall decoration for your place.

At Glass Solutions, we provide the appropriate sizes for many options, shapes and sizes to fit all your needs. If you want to add elegance and modernity to your bathroom, entrance, or anywhere, we have the best option for you.

### MIRRORS

### DECORATION MIRRORS

### BACKSPLASH

Colored glass wall cladding provides a striking and easily maintained wall surface that is ideal in a wide range of commercial and residential interiors.

# ELEVATION

## Glass is always an excellent choice

In architecture, the facade is one of the building's most important exterior elements. The facade sets expectations and defines the feel of the overall structure. It can also help achieve the goal of blending in with the surroundings or standing out from the crowd. Glass Partitions Reduce noise levels between regions; impact resistance, creating glazed walkways, decoration - creating an attractive interior and exterior design, making it possible to add logos or trend designs, Fire resistance - providing protection against fire.

### FRONT SHOP GLAZING

### OFFICE PARTITIONS

# SMART SOLUTIONS

## Smart System!

The partially glazed building with smart glass can be designed to take advantage of natural daylight without compromising connectivity to the outdoors, making smart glass well suited for projects aiming for sustainability certifications. By blocking out sunlight on hot days and harnessing the sun's energy on cold days. Smart glass greatly reduces energy demand the need for heating Ventilation and air conditioning.
